

VetteCargoNets™ Console Net-7"X 10" (Part # CN7X10)

Photo A: Console Net Hook Attachment Locations, Driver Side or passenger side. Note the angle of the plastic hooks. This is needed to compensate for a horizontal force when stretching the bungee between them and a vertical force from any items placed in the net.

Photo B: (plastic hook provided for VetteCargoNets™ attach points) Keep steel pins aligned parallel to each other and not bent or crooked before inserting into carpet.
